

CME INFORMATION

Neuromodulators for Beginners

This activity is jointly provided by Global Education Group (Global) and Skin Clique Academy.

Target Audience

Participants will be licensed advanced practice providers and physicians involved in the treatment of patients with cosmetic concerns to be addressed with the administration of botulinum toxin.

Statement of Need/Program Overview

The Neuromodulators for Beginners live course is designed specifically for healthcare providers who are new to the field of aesthetics, or those who want to deepen their knowledge of this modality. This course will provide learners with the foundational knowledge to understand, use, and safely administer neuromodulators in aesthetic practice.

Neuromodulators have become key tools for a wide range of procedures, from reducing the appearance of wrinkles to treating medical conditions like chronic migraines, excessive sweating, and muscle spasticity.

This course is designed to provide a comprehensive understanding of the science behind neuromodulators, their clinical applications, safety protocols, and best practices for effective use. It will equip learners with the knowledge, techniques, and confidence to deliver consistent, good outcomes for their patients.

Educational Objectives

After completing this activity, the participant should be better able to:

After completing this activity, the participant should be better able to:

- Explain the indications for neuromodulator injections
- Discuss neuromodulator injection sites
- Explain neuromodulator injection sites
- Review anatomical landmarks for neuromodulator injections
- Explain the contraindications for neuromodulator injections
